

Office Management Technology

Description

Mastery of computer applications, communication skills, and interpersonal skills are musts for the office of the 21st century. Tulsa Tech's Office Management Technology program is designed to prepare you for general office tasks. It also offers opportunities for personal growth through assignments that develop leadership skills while concentrating on the mastery of basic office skills. You will learn Microsoft Office computer applications, how to integrate projects using various applications, how to use electronic communications effectively, and how to set goals for personal growth that translate to career employment and advancement on the job. You will be prepared for entry-level employment and have a solid foundation for further training or you may apply credit toward an associate or advanced degree.

- Intern in government, educational, or non-profit organizations & a variety of other commercial environments
- Design, develop, & deliver projects using skills found in an office setting
- Apply time management, interpersonal, & employability skills that are required for success in today's business climate
- Prepare for industry-recognized professional certification exams using MS Office Suite

College Credit
